

# T2A ONLINE TREASURE HUNT

Host a Teams Meeting and invite young people. Give them this list (maybe in the chat function) and get them to run around their house to find these items. People can enter a prize draw and learn about after care supports.

Find:

1. A funny outfit (feel free to improvise)
2. Something you're proud of (e.g. certificate, artwork, sport, book)
3. One food item in your cupboard or fridge that you use in cooking (when they show it later you can ask about recipes)
4. Find out what TILA stands for and write it down
5. Find and write down the number for Next Step Plus in your region.
6. Find something to do with transport (it could be a driver's license, Go card etc.)
7. Something you have saved up for
8. Write down one thing the Sortli app can help with

After a certain time limit (e.g. 7 minutes) get everyone to come back. Call out the different items and get people to show the different things they have gathered from their houses. Use this as an opportunity to explore the topics a bit more, e.g. talk about goals, talk about recipes, chat about accessing TILA, talk about the services Next Step Plus offer, chat about transport needs, talk about budgeting, talk about SORTLI app...

Have fun!
